Nguyen Duc Nhat Tan

Software Engineer

OBJECTIVE

Motivated Fullstack Engineer with a strong foundation in TypeScript and JavaScript, seeking to contribute to dynamic and impactful web applications.

- Short-term: To enhance my skills in fullstack development by working on real-world projects, collaborating with experienced developers, and gaining hands-on experience with modern frameworks and tools.
- Long-term: To grow into a proficient Fullstack Engineer capable of leading development efforts, designing robust software architectures, and making meaningful contributions to innovative and user-centered digital solutions.

EDUCATION

University of Science - VNUHCM

09/2021 - 05/2025

Bachelor of Science in Software Engineering

GPA: 3.6/4

WORK EXPERIENCE

Teko Solution 04/2024 - 04/2025

Frontend Engineer

Project: KarbonMap

- Developed and maintained user-facing features for KarbonMap using modern JavaScript/TypeScript frameworks.
- Collaborated closely with product designers and backend developers to implement responsive, accessible, and high-performance
- Contributed to component-based architecture, improving code reusability and maintainability across the application.
- Participated in code reviews, sprint planning, and daily stand-ups in an Agile development environment.
- Worked with RESTful APIs and integrated third-party services to enhance user experience and data accuracy.
- Optimized frontend performance and ensured cross-browser compatibility.

SKILLS		
Frontend	 TypeScript & JavaScript (ES6+) React.js (JSX, hooks, state management) Responsive and accessible UI development (HTML5, CSS3, SCSS) 	
	• REST API integration	
	 Cross-browser compatibility and performance optimization 	
	• Familiarity with design systems and UI/UX collaboration	
Backend	• Node.js (Express.js, NestJS)	
	 TypeScript for server-side development 	
	 Asynchronous programming and API design 	
	 CI/CD processes and deployment pipelines 	

• Understanding of data flow, API security, and versioning

Tools & Other Technologies	 Git, GitHub/GitLab (version control and collaboration) AI-assisted coding tools Agile methodologies (Scrum, sprint planning, code reviews)
Soft Skills	 Good English communication skills Strong sense of ownership and code quality Eager to learn and open to feedback Collaborative mindset and effective team communication

PERSONAL PROJECT

SaaS AI Agent Platform

Technologies: Next.js, React, Tailwind, Shadcn/ui, tRPC, PostgreSQL

Key features:

- AI-powered calls
- Custom real-time agents
- Summaries, transcripts, recordings
- Meeting history & statuses
- AI meeting Q&A
- Mobile responsive
- Authentication system
